Service Tech Resources

Inspection and Preventative Maintenance Programs

At Metcast Service Tech Resources, we understand the importance of scheduled inspections and predictive maintenance. We've developed an in-depth inspection program designed to keep your equipment and operation running at peak efficiency.

- OEM Certified Service Techs – experienced in all equipment types and manufacturers
- Perform comprehensive operation and equipment surveys designed specifically to your machines
- Provide comprehensive detailed system reports
- Reduce downtime, operating costs and parts usage
- Improve cleaning effectiveness, cycle times and production
- Improve the environment around the machine and your facility by keeping the collection and separation system operating at peak performance
- Safety evaluation of your equipment and operation

Shot Saver Program

Designed to reduce your operating costs, and abrasive usage of your blast cleaning system.
