

Magnavalve Abrasive Control Kt

Application

High Production Wire Rod

Machine Type

Blastec Wire Rod

Project Scope

Install Magnavalve Abrasive valves to allow PLC infinite abrasive flow rates based on wire diameter and line speed.

Solution

Metcast Magnavalve Valves coupled with AC controllers

Results

Abrasive Flow is now regulated and controlled automatically via the PLC based on wire diameter and required line speed. By reducing flow rates to the minimum required to do the job we show a substantial shot savings along with greatly reduced cabinet wear.

The team at **METCAST SERVICE TECH RESOURCES** looks forward to servicing all of your shotblast requirements.

TECHNOLOGY. SERVICE. SOLUTIONS.
