

## **Straight Bore Barrel Head Shaft and Hub**

### **Project Scope**

Reduce or eliminate barrel head shaft and hub failures caused by failure of the tapered mounting system.

### **Solution**

Metcast straight bore barrel head shaft and hub is specifically designed to replace existing Wheelabrator tapered mounting system. The Metcast mounting system locks the hub to the shaft axially and radially.

### **Results**

- Reduces damage caused by clamping failure
- Reduces hub installation time

### **Application**

High Production Grey Iron Foundry

### **Machine Type**

1. 7 and 14 Cubic Foot Wheelabrator® Tumbleblast
2. 22,28 and 34 Cubic Foot Wheelabrator® Tumbleblast
3. 50,70 and 76 Cubic Foot Wheelabrator® Tumbleblast

The team at **METCAST SERVICE TECH RESOURCES** looks forward to servicing all of your shotblast requirements.

Wheelabrator® is a registered trademarks of Wheelabrator Group
